ELEGANZA 5 ACUITY ADAPTABLE BED

by LINET spol. s r.o.

PRODUCT DESCRIPTION:

The intensive care hospital bed allows easy, gentle and safe handling of the patient. It is designed for use in situations when the highest level of medical care is required. The bed is electronically adjustable, including its modifiable length. Eleganza 5 is the only hospital bed in the market with a frame with an adjustable inclination in all directions. The bed is also equipped with a multi-zone bed exit alarm, a USB port for charging and other smart features.

COMPANY PROFILE:

LINET is a key part of LINET Group, Europe's largest manufacturer and supplier of hospital and nursing beds and other medical equipment.
