THE ENERGY DIDN'T DISAPPEAR

IT TRANSFORMED

ENERGY, THAT LIVES ON

- St. Barbara has long been a symbol of strength and protection.
- She once stood by those who searched for energy deep underground.
- Today, that energy lives on — in our vineyards, and in every bottle we create.

ENERGY, SHAPED BY THE EARTH

- Our vineyards are rooted in land with a unique history and structure
- We produce around 2,000 bottles per variety, focusing on quality, character, and precision
- Modern technology, guided by respect for nature.

A PLACE YOU CAN FEEL

- More than a winery — a place where energy becomes an experience.
- Personal approach
- Authentic South Moravia atmosphere
- Wine tastings that connect people.
