ENGINEERING & DESIGN SERVICES

Designing the energy of the future

Full-scope engineering and project services for large nuclear units, SMRs and conventional power plants; from feasibility studies and design through licensing, engineering support and consultancy.

Member SKUPINA ČEZ

WHAT WE DO

01

Studies and design

From concept to detailed design

02

Permitting and licensing documentation

For buildings and nuclear facilities

03

Engineering and consulting

Expert reviews and owner's engineer support

04

New builds and modernisation

Large nuclear units, SMRs and existing power plants

75+ years in energy

350+ experts

8 GW nuclear capacity

20+ GW conventional capacity

30+ countries

Let's design it together
