ABOUT THE COMPANY

The company **RUDOLF JELÍNEK** is engaged in the production of alcoholic beverages, especially fruit distillates and spirits. The tradition of the production of fruit distillates in Vizovice dates back to the year 1585. Due to the fact, that the company **RUDOLF JELÍNEK** has been since the beginning a company based on traditions which are beeing kept alive already for 125 years, we belive that our name and brand will grow and exist many more years to come.

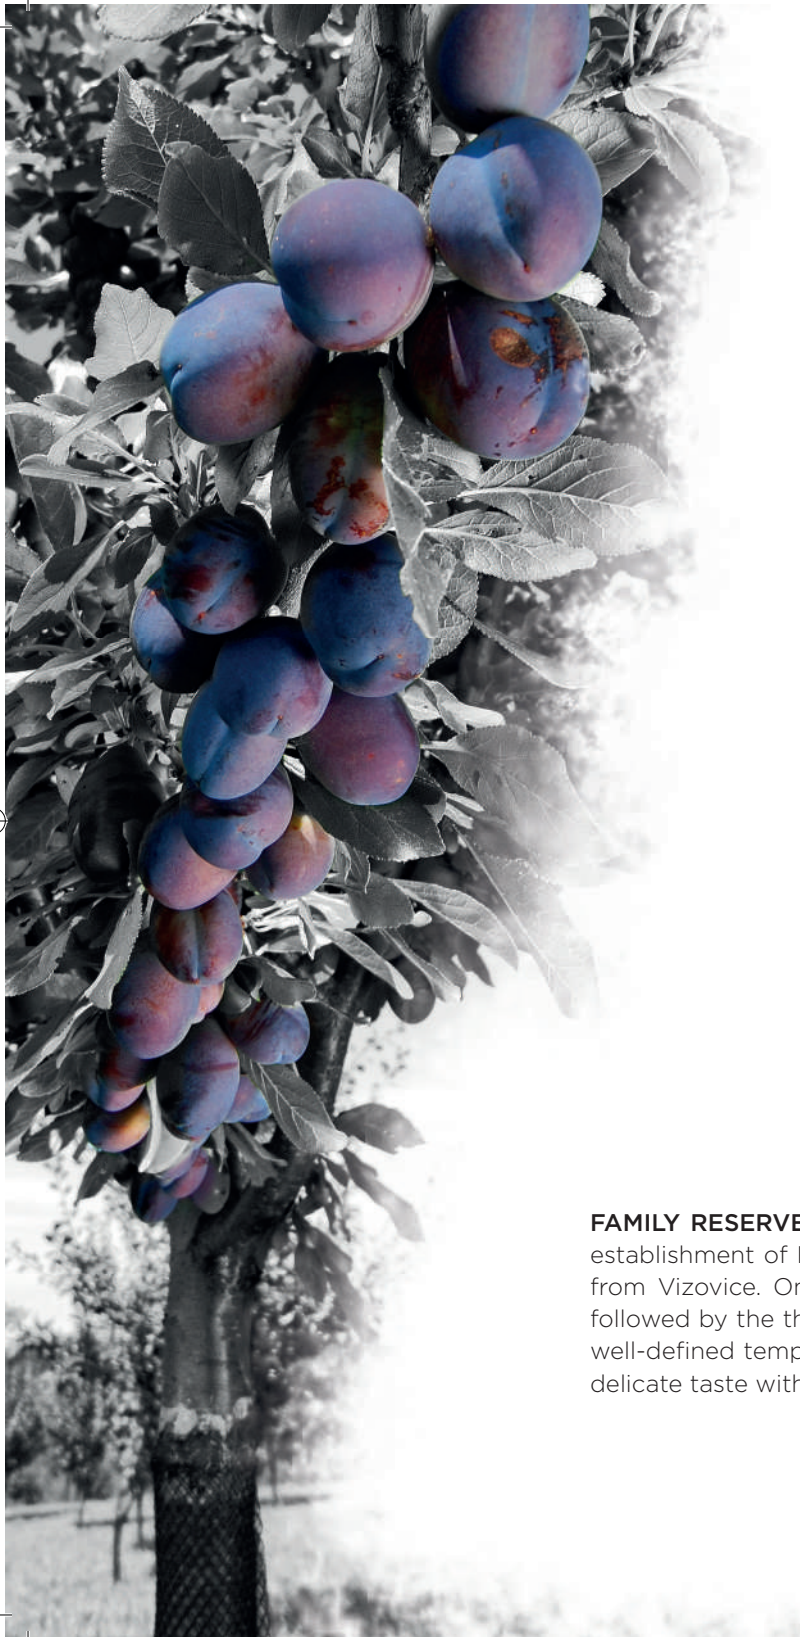

Thanks to all of our company's traditions, our products are known all over the Czech Republic but as well in many different countries all over the world. The company continues with one of the traditions, which is exporting products abroad, which Rudolf Jelínek began with our Kosher spirits to the overseas markets, namely the USA in the early 1934.

The flagship of our company is the plum brandy (slivovitz), which is produced in several variantions (white, gold, jubilee, Kosher, and more). We also produce other branded fruit distillates of the highest quality such as pear, apricot, cherry or apple.

Our premium products are the Kosher distillates, which are approved and granted by the American certificate, the Orthodox Union.

In 2003, the company began planting its own plum orchards on the southern slope of the Vizovice Valley, in the area called Těchlov. After five years, we harvested our first harvest of Vizovice plums and so we started a new tradition – the production of a limited series of Vizovice plum distillate. At the end of 2013 we expanded the area of the orchards and now dispose of 84 ha of plum orchards, 15 ha of cherry orchards and 80 ha of apricot orchards.

FAMILY RESERVE

07253

FAMILY RESERVE 20 YO 46,9% 0,7L is a unique distillate, prepared especially for the 120th anniversary of the establishment of R. JELÍNEK. This is the result of the efforts, experience and patience of the masters of distillers from Vizovice. Only the finest hand-picked fruits of the plum varieties were used for its production. This was followed by the three-stage distillation of ripe plums leaven and maturation in oak barrels for 20 years at varying, well-defined temperatures and alternating air access. The result is a golden-colored distillate with a harmoniously delicate taste with a distinctive woody undertone.

SLIVOVITZ

"Slivovitz is the most famous Czech fruit distillate, which has been prepared for you in Vizovice by the company RUDOLF JELÍNEK from the best plum mash since the 19th century. The production processes have been passed down from generation to generation by our master distillers, and together with the latest technology, the highest quality is ensured."

"Slivovitz is properly served at a temperature corresponding to its surroundings, since it is the only way to achieve the full development of its flavor and aroma."

GOLD SLIVOVITZ 3 YO 45% 0,7L - gold slivovitz is unique in the world of fruit distillates and is traditionally produced in the Wallachian bastion by our master distillers, in Vizovice. The basis of this distillate is classic slivovitz. The Jelinek brothers and French company Denis Mounié together gave birth to this unique gold slivovitz. The RUDOLF JELÍNEK company continues this tradition up to the present day. The production of slivovitz begins with a three-stage distillation of ripe plum mash. The distillate is then stored for aging in oak barrels. Three years of aging in barrels transforms the classic slivovitz into a unique distillate, characterized by its golden color and aroma like cognac or brandy, with harmonious fruit flavors and subtle woody undertones.

SLIVOVITZ 3 YO 45% 0,7L - the classical R. JELÍNEK plum distillate is produced in three stages of distilling. This process gives the slivovitz purity and smoothness. The pits remain present in the mash the whole time to supply the resulting beverage with tannins for a specific flavor. It is precisely the presence of pits in the mash together with three-year aging by which the slivovitz acquires a soft, rounded fruit flavor with pleasant undertones. The 120-year long tradition of manufacturing our plum distillate in the R. JELÍNEK company is a guarantee for supreme quality.

MORAVIAN APPLE DISTILLATE 3 YO 42% 0,7L - the pleasant scent of mature apples from the Moravian region characterizes this genuine distillate. Repeated distillation and long maturing period in our oak barrels result in an aromatic, delicate, slightly sweet drink.

APRICOT DISTILLATE 42% 0,7L - a genuine spirit with a long tradition which is made by triple distilling of the ferment of well ripen apricots. After maturing for a year, the spirit acquires a pleasant fragrance and taste of apricots.

UNIQUE DISTILLATES

04773

MIRABELLE 42% 0,7L – this mirabelle distillate will surprise you with its delicate aroma and flavor. This unusual spirit is produced from the healthy, ripe fruit of wild varieties of yellow plums (Mirabelle). During production continuous distillation is used, which guarantees preservation of the most natural aroma and flavor.

RASPBERRY 42% 0,7L - raspberry distillate captivates you with its distinctive fruity taste and aroma which is indistinguishable from the aroma of freshly picked raspberries. This distillate is produced by drawing distillation of raspberry macerate. Raspberries are macerated in ethyl alcohol for a precise period and the resulting spirit is very faithful to the flavor and aroma of the fruit from which it originated.

04767

07242

BIERBRAND 42% 0,7L – is made by distilling fresh PORTER black beer. The distillate acquires an intensive bouquet and flavor of malt and beer. This spirit is mainly for people, who like the taste of hop and of course, beer. We are one of the fewer companies which are able to make this nice “beer distillate”.

BLACKTHORN 42% 0,7L – this distillate is a very special spirit from the fruits of the wild blackthorn bush. Only fruits harvested after the first frost may be used for processing. The tannins contained in such fruits result in a very pleasant taste.

EXCLUSIVE LIQUEURS

Liqueurs that combine the taste and strength of a true fruit distillate with the pleasant aroma and sweetness of natural fruit juice, sweetened with sugar - this is the exclusive line of our fruit liqueurs R. JELÍNEK.

Fruit distillates are produced by the multi-stage distillation of mature ferment, in the case of the raspberry distillate, it is by maceration of the fruit in fine alcohol and subsequent distillation.

The basis is always sufficiently ripe and quality fruit. The distillate is mixed with the natural fruit juice of the type of fruit and sweetened with sugar after the necessary ripening period in which the taste is rounded.

We hereby present our 3 fruit liqueurs with the following tastes: **PLUM LIQUEUR 24% 0,7L**, **APRICOT LIQUEUR 24% 0,7L** and **RASPBERRY LIQUEUR 24% 0,7L**. Enjoy!

WILLIAMS PEAR LIQUEUR 40% 0,7L - the Williams pear, made from pears from our Chilean orchards, is the basis of this sweet liqueur.

Afterwards we filled it with natural pear juice and then let it mature in oak barrels. Aging in these barrels and the natural composition of the product guarantees a pleasantly sweet, rounded taste and a distinctive aroma of ripe pears.

LIQUEURS & ELIXIRS

SAINT HUBERT'S HERBAL LIQUEUR 30% 0,5L – is a liquor with a marvelous taste of herbs and fruits.

FERNET 38% 0,7L – this digestive beverage was created during the period of the Habsburg dynasty in the second half of the 19th century in the region of central Europe near the famous health spa town of Luhačovice, Czech Republic.

PRADĚD 38% 0,7L – is a golden-colored herbal liqueur with a sweet as well as slightly bitter taste, produced by the maceration of 16 types of herbs and fruits. The history of this particular herbal liquor goes back to the year 1877.

BOHEMIA HONEY 35% 0,7L – a liqueur, which combines the three-year-old plum distillate with the natural linden honey. Natural honey aroma with a light fruity tone of plums creates a fresh taste and sweet aftertaste.

ELDERBERRY ELIXIR 14,7% 0,7L – our ELDERBERRY ELIXIR is made from the fresh blossoms of the elderberry trees and bushes. This elixir is perfect to make yourself a refreshing long drink for those hot summer evenings.

ABSINTHE

From distillates to Whisky. The oldest brand of Czech Whisky, the **GOLD COCK WHISKY**, had been in trouble and for sale. Therefore, the company R. JELINEK bought the oldest Czech Whisky company and took it under their wings and kept the original, yet strange and in some way brave name, **GOLD COCK**. Due to the fact, that the brand has always been truly craft, we do not have huge capacities and stocks of our Whisky, but this is changing every year. Ever since we found out, that the Whisky has remarkable tastes and people enjoy a “different Whisky”, we yearly expand our numbers of barrels and make more room for aging our precious **GOLD COCK Whisky**.

Please be aware, that our stock is limited. Therefore, we recommend to ask your contact person within R. JELINEK for more information about the availability of our Whiskys.

PREMIUM SPIRITS
