# INTRODUCTORY **WORD**

Dear customers and colleagues,

I would like to introduce to you the joint stock company ALUKOV, which I founded and in which I hold the position of Chairman of the Board.

The company's history reaches back into the last century, established in 1995 with the original aim being to do business in the field of manufacturing of aluminium frames for doors and windows. In the following years our company adapted to customer requests and began to specialize in manufacturing of telescopic enclosures.

Since the very beginning we have been responsible for the technological design of our covers and we also hold several patents which are today included in our manufacturing processes as standard. The main production plants are located in the Czech Republic and cover an area of more than 30,000m<sup>2</sup>. We have established further plants in Slovakia and in Hungary with an area of 20,000m<sup>2</sup>. With a manufacturing volume of three thousand covers a year, we are the largest international manufacturer of custom-built covers and we employ more than 500 people. We ensure distribution and service with a modern vehicle fleet which included 30 lorries, 5 service vehicles and 20 cars. The quality of our products has been certified since 2005 by specialists in the field of quality management in accordance with ISO 9001, ISO 14001 and a French research institute in Paris (Laboratoire National D'essais). In 2013, we won an award for the most innovative patio cover CORSO™ GLASS at the prestigious FOR ARCH trade fair in Prague.

So far we have established branches in 40 countries around the world, making it the largest sales network in its field. We are constantly innovating our activities with a focus on the customer.

Alukov UK Lt is one of the branches who has been offering first class service to its customer through the whole UK.

I believe that our products can create a unique living space for your customer and therefore bring you more business.

Best Wishes

Jan Zitko  
Chairman of the Board, ALUKOV, a.s.  
President, IPC Team

# HORECA

## TELESCOPIC ENCLOSURES FOR HOTELS, RESTAURANTS AND CAFETERIAS

Most restaurant customers like sitting at beer gardens or any other outside space. Thanks to the retractable enclosure you can transform indoor space into outdoor in just few seconds. On rainy, cold or windy days the enclosure protects your customers from the elements and on sunny days you simply slide the enclosure away and let your customer enjoy the pleasant sunshine. Only this way you can fulfil potential of your outside space and attract more business.

### BENEFITS

- Longer season = higher revenue
- Protection against bad weather
- Fully lockable enclosure allows you to leave furniture outside
- Limits presence of insects
- Attractive and unique feature which adds value to your business
- Quick return of your investment

# BESPOKE DESIGN

Each enclosure is tailor-made to suit your facilities and its needs.

# **LONGER SEASON** = HIGHER REVENUE

Thanks to the clever telescopic design you can use the covered outdoor area most of the year.

# MORE SPACE

Create a new in and outdoor space with one solution - Horeca Enclosure.

# RESTAURANT **ENCLOSURES**

Convenience, comfort and beautiful space for relaxation are the essence of what is offered by a covered patio.

# SPACE FOR RELAXATION

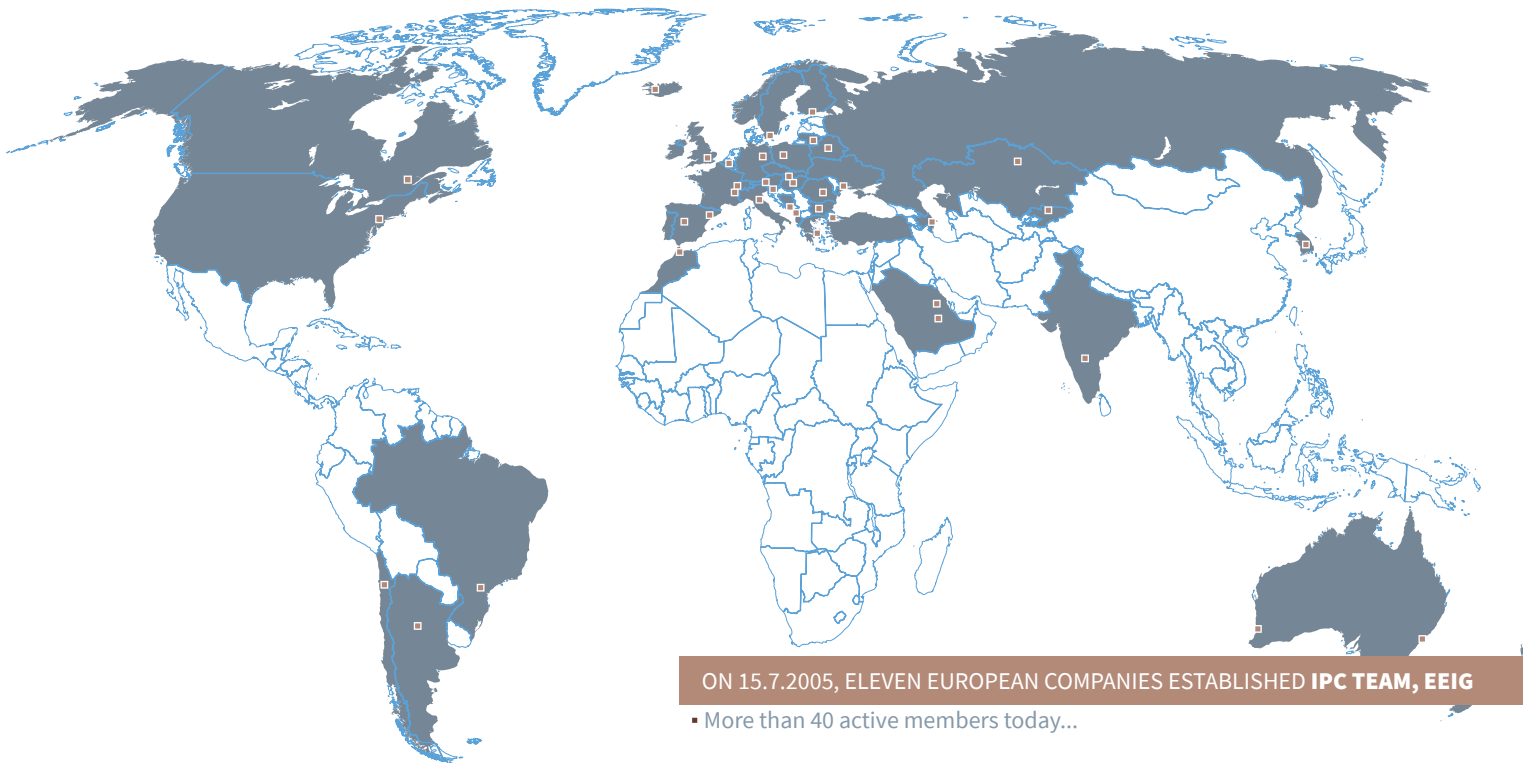

Your customers can enjoy the outdoor space at anytime.

# WE ARE CLOSER TO **YOU**

Alukov has branches all over the world. We make sure that each office provides the best service to its clients. Alukov UK is branch based in UK where we have been serving our customers for past 10 year.
