

Dear Business Partners,

We would like to introduce you to **MERETECH s.r.o.**, a Czech manufacturer and supplier of professional hot air welding guns and accessories. Based in Jablonec nad Nisou, Czech Republic, we develop and manufacture high-quality welding guns, nozzles, blowers, and specialized equipment for plastic welding.

We have been following the development of the Bulgarian plastic welding market with great interest and believe that our products would be highly beneficial to both your company and your customers.

As you can see in the **attached documents**, we specialize in the production and delivery of:

- **Professional Hot Air Welding Guns**
- **Professional Welding Nozzles** (including customized solutions)
- **Professional Air Blowers, Table Holders**, and other accessories

Our products are defined by their high quality, durability, and reliability. They are the result of **30 years of experience** in servicing similar equipment and close collaboration with the **CXI Technical University of Liberec**. Furthermore, our production utilizes unique 3D printing technology, allowing us to maintain an individual approach and meet your specific technical requirements.

Detailed information can be found in the enclosed leaflet, on our website www.mtig.cz/en/, or on our YouTube channel [@MERETECH.Jablonec](https://www.youtube.com/@MERETECH.Jablonec).

We are interested in establishing a **long-term business cooperation** with a professional Bulgarian distribution or sales partner. Should you be interested, we are ready to introduce our product range and business terms in more detail.

We look forward to the possibility of working together.

With best regards,

MERETECH s.r.o.
Mr. Jiří Guth
