

### MORE THAN 30 YEARS OF EXPERIENCE, MORE THAN 350 YEARS OF TRADITION

Ekobal Rožnov produces paperboard cups and lids in the heart of Moravian Wallachia – a place where the history of paper has been written since 1664.

### LESS PLASTIC, MORE NATURE

- We replace plastic with a natural alternative
- In-house offset and flexo printing
- Raw materials and production from EU-sourced materials
- We meet all food standards
- Certification: ISO 9001:2016, FSC

ISO 9001

IFS/BRC (in progress)

HACCP

### Beverage cups

We produce beverage cups from standard PAP/PE paperboard. They are suitable for hot and cold drinks and for coffee machines. In addition to PAP/PE, we also produce cups in the GreenCup line from PAP paperboard, which can be recycled with mixed paper or composted after use. The paperboard is from renewable resources.

### Ice cream cups

Ice cream cups have a specific paperboard quality that corresponds to the conditions for storage in freezing equipment. Ice cream cups are made out of standard PAP/PE and the Green Cup line from patented 100% PAP paperboard. Excellent print quality is an important matter of course.

### Dairy cups

We make the cups for dairy products out of a special paperboard, which was developed specifically for these purposes. So, it is not the same paperboard you will encounter with beverage cups. The paperboard composition ensures comparable properties to standard plastic cups.

### Instant food cups

Our cups are great for packing loose mixtures such as instant porridge, soups, but also spices, biscuits and so on. The use of our cups is inexhaustible. We always choose the right material so that it meets the requirements of the functional packaging.
