

Welcome

We are a trading company PROBIO, the first and largest producer of organic food in the Czech Republic. We have been on the market since 1992. We produce 1.500 various products in organic quality in our three organic mills, packing houses and warehouses. We also have an organic farm PROBIO, where we grow organic crops. Quality is our priority: We accompany the products right from the seeds, which we produce ourselves, to the final product.

For producers:

Various granulations from fine flour to coarse semolina, broken cereals, flakes and kernels.

Gluten-free products up to 20 mg/kg and also 5 mg/kg from our gluten-free mill certified to EU standards.

All this from organic crops - buckwheat, spelt, rye, oats, wheat, barley, lentils, sorghum, rice, chickpeas, peas, quinoa and also from ancient crops - einkorn, emmer, red wheat.

Package size of the raw material - big bag (700 - 850 kg), 25 kg bags, bulk.

Gluten free mill

Packing line

For wholesalers:

We can produce a private label in various types of packaging.

For retailers:

We can package our entire product range in our private label (flours, cereals, pulses, granola, mixes...). We currently pack in private brands e.g. Billa Bio, Nature's Promise, Tesco Organic, etc.

For farmers:

Organic seeds – rye, oats, spelt, wheat, barley, buckwheat, sorghum, peas, mustard, phacelia, camelina, clover, alfalfa, triticale, pisum sativum, vicia, mixtures, etc.

From our eco farm

Trifolium incarnatum

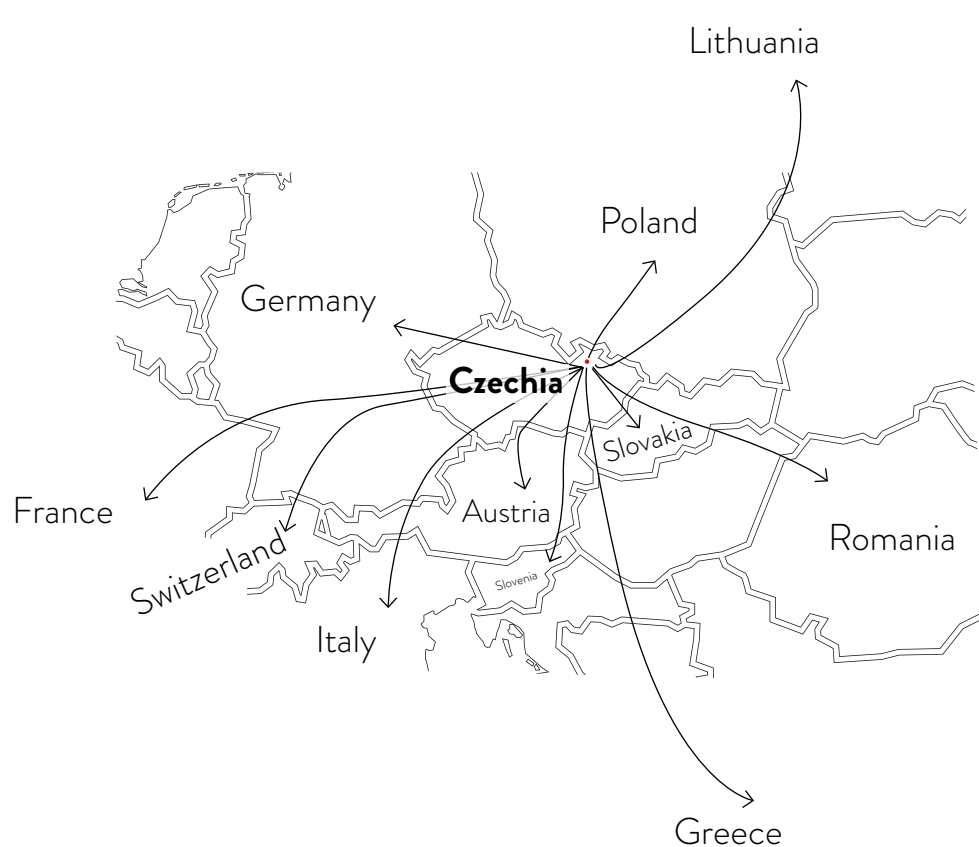

Certificates:

CZ-BIO-001
