Czech Trade Promotion Agency

CzechTrade

We are pleased to introduce the Czech Republic to you via the Czech companies participating in this trade fair.

Having been a part of the European Union since 2004 the Czech Republic is recognized as the best business environment from which to better serve international customers. The strengths of this market are its strategic, geographical location, its long established industrial tradition, reasonable costs, well-developed infrastructure and skilled workforce.

Czech companies appreciate the opportunity of joint presentations at foreign trade fairs under the auspices of the state and they consider such presentations as being incredibly effective.

CzechTrade is a governmental trade promotion agency of the Czech Republic established by the Ministry of Industry and Trade. Its main objective is to develop international trade and cooperation between businesses in the Czech Republic and around the world. Wherever in the world you are, the agency is your official contact partner in the search for qualified Czech-based manufacturers and service providers.

- More than 25 years of professional partnership
- Free and customized services
- More than 50 offices operating worldwide
- Excellent overview of the Czech manufacturing market and the potential of Czech producers
