PBtisk is one of the most significant book producers in Europe. The printing company established in 1990 in Příbram currently has more than 200 employees and produces approximately 5,000 books and more than 15 million copies per year. All types of bookbinding are carried out entirely in-house. The expertise and skilfulness of the company's employees is the core of the production.

PBtisk focuses on quality and this is evident in the company's modern equipment using premium printing technologies. The company therefore delivers top quality printing and bookbinding.

The company's production is shipped not only to customers within the European Union, but also overseas. Its clients include major publishers, museums, galleries photographers and other institutions. The highly professional work and quality of workmanship is regularly recognised in various awards.

The company consistently achieves customer satisfaction owing to detailed understanding of the needs of every single customer and selection of the most appropriate tools and procedures for meeting those needs. PBtisk thus offers individual solutions customised to each client and specific product.

PBtisk is a synonym for exceptionality and quality – providing services of the highest standard, exceptional reliability and, most importantly, highly personalised approach.
