# Czech Trade Promotion Agency

## CzechTrade

We are pleased to introduce the Czech Republic to you via the Czech companies participating in this trade fair.

Having been a part of the European Union since 2004 the Czech Republic is recognized as the best business environment from which to better serve international customers. The strengths of this market are its strategic, geographical location, its long established industrial tradition, reasonable costs, well-developed infrastructure and skilled workforce.

Czech companies appreciate the opportunity of joint presentations at foreign trade fairs under the auspices of the state and they consider such presentations as being incredibly effective.

CzechTrade is a governmental trade promotion agency of the Czech Republic established by the Ministry of Industry and Trade. Its main objective is to develop international trade and cooperation between businesses in the Czech Republic and around the world. Wherever in the world you are, the agency is your official contact partner in the search for qualified Czech-based manufacturers and service providers.

- More than 25 years of professional partnership
- Free and customized services
- More than 50 offices operating worldwide
- Excellent overview of the Czech manufacturing market and the potential of Czech producers

**Česká vodárenská aliance, z.s.**

Kadaňská 3546/41, 430 03 Chomutov

Czech Republic

Tel.: +420 411 192 225, czechwateralliance@gmail.com

[www.czechwateralliance.com](http://www.czechwateralliance.com)

Czech Water Alliance (CWA) was based in 2004. CWA was one of the export alliances founded by CzechTrade. The aim of the alliance is to develop and promote the Czech companies, their products and technologies to foreign customers. CWA seeks to improve the position of the Czech firms in the export of services and technologies in water management. Czech Water Alliance continuously cooperates with more than 300 companies on the Czech market and currently associates a prestigious portfolio of companies.

IN-EKO TEAM s. r. o.

Trnec 1734, 666 03 Tišnov

Czech Republic

Tel.: +420 517 070 611, [info@in-eko.cz](mailto:info@in-eko.cz)

[www.in-eko.com](http://www.in-eko.com)

**IN-EKO TEAM** is one of the leading manufacturers of wastewater treatment equipment worldwide and your global partner in microfiltration and tertiary treatment, quaternary treatment, P removal, flotation systems, and mechanical pre-treatment. We operate worldwide and have installations in more than 80 countries, including Saudi Arabia.

Our equipment is designed with an **emphasis on maximum reliability, long service life, and low operating costs.**

Using our 30 years filtration and microfiltration experiences from municipal, industrial and aquaculture sectors to bring the most important substance - water, back to the life.....for you.

## OCCO Vision s.r.o.

č.p. 233, 277 07 Vraňany

Czech Republic

Tel.: +420 737 139 619, hello@wastedigital.cz

 A green banner showcasing five waste management products: OCCO (battery-powered AI IoT camera), Smart locks for semi/underground containers, Fill monitoring (radar technology for containers), GPS tracker for skip containers, and a Web App platform.
 

**waste digital**  
smart waste management solutions

<b>OCPO</b> battery powered AI IoT camera	<b>Smart locks</b> for semi/underground containers	<b>Fill monitoring</b> radar technology for all types of containers and environments	<b>GPS tracker</b> for skip containers and any other physical assets	<b>Web App</b> A platform that unifies all data and processes in one place

Waste Digital develops and manufactures innovative IoT solutions focused on smart waste management. Our technologies drive the digitalization of waste management, improve collection efficiency, and promote sustainability in urban and industrial environments.

All our products connect to the Waste Digital Platform, providing real-time data analytics, and an API for seamless integration with any other system.

Our portfolio includes:

- Radar and ultrasonic fill-level sensors designed to measure the fill level of all types of containers across various environments
- Smart locks for underground and semi-underground containers
- A battery-powered AIoT camera that captures images at regular intervals and automatically analyzes them
- GPS Trackers

**VAPO, společnost s ručením omezeným**

17. listopadu 371, 549 41 Červený Kostelec

Czech Republic

Tel.: +420 491 462 696, [vapo@vapo-sro.cz](mailto:vapo@vapo-sro.cz)[www.vapo-sro.cz](http://www.vapo-sro.cz)

The company VAPO was established in 1993. We specialize in rubberized-fabric products and technical moulded rubber.

Among the rubberized-fabric products we focus on pipe stoppers, rehabilitation packers, lifting bags and leak sealing program. Further products can be custom made.

More than 30 years of experience and long-term cooperation with our international partners enable us to continuously improve our production program. VAPO products guarantee the maximum functionality and safety even in difficult conditions. VAPO offers reliable solutions mainly for customers working in construction, testing or servicing of pipes and sewages.

**Zíkmund electronics, s.r.o.**

Na Radouči 1221, 293 01 Mladá Boleslav
